Organising Committees

Local organising committee

Dr. Mhairi McIntyre, Technical University of Denmark (chair)

Prof. Jens Nielsen, Technical University of Denmark (co-chair)

Dr. José Arnau, Biotechnological Institute

Dr. Hans van den Brink, Christian Hansen A/S

Dr. Kim Hansen, Novozymes A/S

Dr. Susan Madrid, Danisco A/S

Scientific Committee

Prof. Cees van den Hondel, University of Leiden, The Netherlands (chair)

Prof. David Archer, University of Nottingham, UK

Prof. Beatrice Felenbok, University of Paris Sud, France

Prof. Guiseppe Mancino, University of Rome, Italy

Prof. Juan Martin, University of Leon, Spain

Prof. Merja Penttila, VTT, Finland

Prof. Paul Tudzynski, University of Muenster, Germany

Conference Secretariat

Congress Consultants Martensens Allé 8 DK-1828 Frederiksberg C Denmark Tel: +45 70 20 03 05 Fax: +45 70 20 03 15 E-mail: ecfg7@congress-consult.com

Venue Addresses

Saturday The Black Diamond (Royal Library) Søren Kierkegaards Plads 1 DK-1016 Copenhagen K Denmark

Sunday-Tuesday

DTU (Technical University of Denmark) Building 101 Anker Engelundsvej 1 DK-2800 Lyngby Denmark

Opening Hours

The registration desk and Conference Secretariat will be open during the following periods:

Saturday 17 April 14.00-19.00 Sunday 18 April 07.45-18.30 Monday 19 April During breaks Tuesday 20 April During breaks

Dear friends and colleagues,

Welcome to the 7th European Conference on Fungal Genetics. The conference marks an important milestone in our field, with the completed sequencing of many fungal genomes providing significant opportunities to improve our understanding of fungi and facilitate the development of new and improved applications of these organisms.

The conference has attracted more than 500 scientists from all over the world and aims to provide a forum for discussion and interaction between academics, industrialists, students and experts alike. In the plenary sessions an overview of the most significant, current research will be provided within the following topics: Fugal-host Interactions, Signalling and Biotechnology. A series of workshops will allow a deeper investigation of a range of topics, with a focus on developing research and the work of younger scientists. These sessions aim to provide a platform from which to develop interaction and collaboration between scientists. A large number of works are presented as posters and I encourage all participants to use the opportunity for discussions with fellow scientists during the poster sessions.

ECFG7 is organised by a local committee of researchers from a number of Danish academic, research and industrial centres. The administrative support for the conference has been provided by the Center for Microbial Biotechnology (Technical University of Denmark). I would like to take this opportunity to thank all those involved in the preparation for this meeting for their time, efforts and efficiency. I would also like to extend my thanks to the Technical University of Denmark for enabling us to hold the conference on their campus and to our main sponsors whose financial support has greatly assisted the organisation of ECFG7.

Copenhagen is a wonderful city, providing many cultural and historical points of interest. I hope that ECFG7 will be a successful event for all participants and that a fruitful and enjoyable time will be spent in Denmark.
